

# Fort Insert Rails

# Fort Options, Sandbox Area

About us...

## Fort Insert Rail

- Insert Rails are made from wood and are a needed safety feature for any unused openings that may be left after you have designed your Fort.
- An Insert Rail is required for any A-Frame Attachment openings.
- Fort Insert Rail
- Turbo Insert Rail
- Satellite Station Side Insert Rails

Add more "WOW" to the Fort you've created by including one or more of these fantastic features. The whole family will enjoy the special spaces.

Sandbox Cover

Picnic Table

Lower Deck

Safety Handrails

- **Sandbox Cover** is water resistant and heavy duty. It comes in blue, green or yellow.
- **Picnic Table** Great for snacks or lunch, it attaches below the fort.
- **1/2 Lower Deck** still allows for a sandbox and is a perfect fit under the Picnic Table.
- **Full Lower Deck** is made of wood and gives you more play area.
- **Safety Handrails** help protect your child from stepping into moving swings.
